

Sample Necklace

By Akke Jonkhof

Here are the instructions for my Sample Necklace. Because this project was never intended to be a pattern I cannot give exact measurements or rows. You have to try yourself what looks good to you.

You start with 18 beads (first 2 rows of the scheme) Start on the right top corner

1B, 1W, 1B, 1W, 1B, 1W, 3G, 1W, 3G, 1W, 3G, 1B

Follow the rest of the diagram till you made 15 rows of Peyote. And join the 2 corners. (the red beads is the joining bead but in your work it need to be black)

Continue as drawn in the diagram. I made each pattern about 5 or 6 cm (25- 30 rows) but that is not exact because I never intended to make a pattern for the necklace.

Enjoy playing with it

Akke
